### DAMAGING EVIDENCE

Position of Scott Jackson Growing  
More Perilous.

### LATE DEVELOPMENTS NOTED.

Pearl Wanted to Return Home and Tell  
Her Troubles to Her Mother, but She  
Was Detained by Walling—Bushes Near  
Scene of the Crime Sprinkled With  
Blood.

NEWPORT, Ky., April 27.—Scott Jackson entered the Campbell county courtroom this morning for a second week of the famous trial. If the experiences of the past few days have unnerved or changed him in any respect it was not noticeable to the average attendant upon the trial. The far seeing special correspondent could probably have discerned a tremor of the lips, a downcast eye, or some other slight evidence of a weakened condition, but this did not exist in reality. The work of the prosecution was begun by a continued effort in the same direction as has characterized passed proceedings, and link by link there is being welded a chain of circumstances which it seems impossible for the defense to break.

A total of 21 witnesses on Saturday deposited their bits of evidence upon the prosecution's side of the scales.

In some respects the proceedings were remarkable. On two different occasions the jury was sent from the room, and twice a witness was dismissed temporarily, in order that the counsel on both sides might argue important points and show to the court what they intended to prove by the witness. It was remarkable, also, for the severe strain upon the court. Judge Helm's inquiry, as well as his vast legal knowledge, were taxed to keep track of the issues raised and to solve the knotty problems submitted to him by counsel for both sides.

### Latest Developments.

One of the strongest points against not only Jackson, but Walling as well, was the pile of evidence on Saturday going to show they persuaded Pearl Bryan from returning to her home and telling her mother everything. It was shown that on Thursday, Jan. 30, Jackson took her to a medium, who gave the girl motherly advice, telling her to go back home. Pearl told the woman her name and explained her condition, begging for relief. The medium refused to assist in any criminal work, and, finding that Jackson did not mean to help her, Pearl decided to go home. It was shown by several witnesses that she went to the Central Union station, in Cincinnati, on the next day to take the train for Indianapolis, and Walling was with her. At the Atlantic Garden they met Jackson, who pleaded 15 minutes with her to change her mind. He left her in disgust, but Walling followed her to the station. They sat for two hours, according to several witnesses, and she was crying nearly the whole time. The Indianapolis train was ready to start, but Walling finally persuaded the girl to remain, and they left the station together.

It was also brought out that the blood on the privet bushes was wet when the body was found. A witness found three knife cuts in the ground where the missing head should have been. He, with another man, were digging in the ground and found a lock of Pearl Bryan's hair which had been cut off when the body was decapitated. They also found several hair pins. The hair was compared with a lock which Mrs. Bryan exhibited, and they tallied exactly. The ground was shown to be perfectly saturated with blood in several places and the leaves were sprinkled. It was also shown that when Jackson was in Foertmeyer's drug store in Bellevue he inquired about a skiff and the shortest way to Walnut Hills. This was the day before the murder.

### Visits to Bellevue.

Druggist Foertmeyer said concerning the much talked of visits of the accused to Bellevue: "The first time I saw Scott Jackson was on Thursday or Friday before the murder. He was in company with a dark young man, whom I have since identified as Alonzo Walling, and a blonde young woman. 'I cannot give a very good description of the young woman. I saw the left side of her face. The wind was blowing the cape about her. She was clutching at her hat, which had feathers on it. She was plump, and her fresh, clean appearance showed she was from the country. 'She stood in front of my store. Jackson and the dark young man came into my store. All my conversation was with the dark young man. 'I object to what was said,' exclaimed Crawford, but he was overruled.

### Destroyed by Fire.

MARTINSVILLE, Ind., April 27.—B. F. Krimer & Son's farm implement house and blacksmith shop was almost totally consumed yesterday morning. The loss on buildings and contents is about \$2,500. No insurance. Incendiarism is suspected.

### Alonzo Rooker's Trial.

NORFOLK, Ind., April 27.—Alonzo Rooker's trial for attempting to take the life of Mrs. Pees, brought here on a charge of venue from Marion county, will be called for trial in the Hamilton circuit court May 11.

### Brimstone More Destructive Than Moths.

RUSHVILLE, Ind., April 27.—Brimstone was burned in the garret of the old Sexton homestead as a means of eliminating moths. The floor caught fire and house and contents were damaged \$3,000.

### Gotwalt's Money Gone.

ELKHART, Ind., April 27.—Late Saturday afternoon Agent Gotwalt of the Lake Shore railroad stepped out of his office for 10 minutes. While gone the place was robbed of \$150.

### Heroic Action Results Seriously.

ELWOOD, Ind., April 27.—Millard Thomas, a tinplate worker, was perhaps fatally crushed by falling under the feet of a runaway team which he tried to stop Saturday night.

## 50 cents

In some conditions the gain from the use of Scott's Emulsion of Cod-liver Oil is rapid. For this reason we put up a 50c. size, which is enough for an ordinary cough or cold, or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable, always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites.

Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.

young man asked what was the most direct way to Walnut Hills. I said by the Dayton ferry.

"Did you see Jackson and Walling and the lady after that when they were in front of your store?"

"Yes, sir."

"When?"

"On Washington avenue going toward the river."

"Now, where is your store?"

"Corner of Washington and Fairfield avenues."

"How long afterward was this from the time they left your store?"

"About a half hour."

The druggist then identified Jackson as the man, the prisoner looking the witness square in the eye.

Miss Kate Holmes and John Foster also testified to having seen Jackson, Walling and a blonde young woman in Bellevue on the day before the murder.

Witnesses Joseph Kuegel and Lieutenant Renkert of the police force told of the incidents regarding the bloody valise, which was left in the former's

saloon by Jackson, and the identification of the muddy trousers found by the officer.

### Pearl's Last Fatal Mistake.

One of the most touching incidents of the day's proceedings was the statement of Traincaller Pat Kinney of the Grand Central depot, who said regarding Alonzo Walling:

"I saw him in the lower waiting-room of the depot on the afternoon of Friday, Jan. 31, 1896, about 2:15 o'clock. He was sitting on the last seat with a young lady, a blonde. She was crying and held a white handkerchief in her hand all the time, and she cried all the time for two hours. I knew the girl was in some kind of trouble. I announced several trains, but they did not go anywhere. About 4:10 o'clock Walling got up, the girl following him. They left the station, going out the Third Street entrance."

"Did a train leave for Greencastle while they were there?"

"Yes, sir, a train left for Indianapolis at 5 o'clock."

"Was the girl crying all the time she was there?"

"Yes, sir."

"What attracted your attention to the couple?"

"Well, I tell you, it was the girl's tears. I felt sorry for her. She seemed to be in so much trouble."

"Are you sure the man with the girl was Walling?"

"Yes, sir; I am sure. I saw him later at the jail. He is the same man."

Kinney identified the photograph of Pearl Bryan as that of the girl in the station with Walling.

The theory is that Pearl Bryan went to the depot that afternoon to take the train to Indianapolis and that Walling persuaded her not to go. They left the depot together. The recital of this evidence brought tears to the eyes of Pearl Bryan's mother, who was sitting inside the bar, far removed from the sight of the jury. This evidence was intended to supplement and fix in the jury's mind the fact that the girl was in the hands of the accused.

Mr. Pinks, in which he related about seeing Walling come out of the Atlantic garden with a blonde girl a little after noon on Jan. 31, stopping a while in College street, where Jackson stood in front of the pair talking and gesticulating with great earnestness.

Other evidence was with regard to the value and the finding of a lady's handkerchief on the person of the accused at the time of his arrest. The accused and the hat identified as Pearl Bryan's were put in evidence.

### UNKNOWN MAN FOUND DEAD.

His Body Found Covered With Underbrush by Hunters.

DECATUR, Ill., April 27.—The body of a man has been found in the woods east of the city. It was covered by leaves. Three men hunting stumbled over it. The body had evidently been there several months. It was carefully covered with leaves, and sticks were placed on top to hold them down. In one pocket was a loaded revolver. The clothing was that of a workman, dressed for a cold winter day. There was nothing to indicate the man's identity. Apparently he had been killed by blows on the head. There were no valuables in the pockets. It is believed that the man was murdered for his money by thugs.

### Illinois Farmers Alarmed.

MASCOUTAH, Ill., April 27.—The continued drought that has prevailed throughout this section of Illinois during the winter months has not been broken by rain and it is beginning to threaten disaster to the growing crops in this section of the state. The growing wheat crop is still in apparent good condition and has a fine appearance, but farmers are very much worried at the appearance of millions of tiny bugs in the wheat fields.

Charles Sims, Mike Trainer and Conroy Gorman, arrested for robbing the St. Louis and San Francisco train near Lebanon, Mo., have confessed.

### WORK FOR THE WEEK

Plans Which Will Be Followed by Congress.

### VARIOUS SUBJECTS IN THE HOUSE

Senate Will Continue to Discuss the Appropriation Question, Beginning With the Naval Bill and Including the District of Columbia and River and Harbor Bills—Early Adjournment Probable.

WASHINGTON, April 27.—The house having disposed of all the appropriation bills will devote the balance of the session, except such portions as are consumed by conference reports, to clearing up such matters as opportunity affords. This week promises action on several measures. The Pickler general pension bill, which was under debate last week for three days, will be voted on today if the clamor for more time for debate is not too importunate, in which case the debate may be allowed to run on for several days. Mr. Pickler, however, believes a vote can be obtained today. The measure will probably receive every Republican and quite a number of Democratic votes. It has been agreed that the bill to empower the president to retire John M. Quackenbush as a commander in the navy shall be taken up tomorrow. Commander Quackenbush was court-martialed and dismissed from the navy in 1874 on charges of excessive intoxication. He has now reached the age when, had he not been so dismissed, he would be retired.

The house has also agreed to take up the bankruptcy bill this week and devote three days to its consideration. Should these three measures be disposed of before the end of the week there are several contested election cases pending. Of course everything will have to give way if conference reports on appropriation bills are presented.

### SENATE PROGRAMME.

Appropriation Bills Will Occupy Most of Its Time This Week.

WASHINGTON, April 27.—The senate programme for this week so far as determined upon includes only the consideration of appropriation bills beginning with the naval bill today and following that closely with either the river and harbor or the District of Columbia bill. There may be spasmodic efforts to get up other measures, but the probabilities are that nothing else of any general importance will receive attention. Certainly nothing will be taken up which will lead to general debate if the committee on appropriations can control the order of business.

It is expected that there will be an effort on the part of Senator Gorman and other senators to amend the naval bill so as to provide for the construction of only two battleships instead of four as the bill provides. There is also an element in the senate favorable to increasing the number of the navy. It is therefore expected that this bill will develop considerable debate. The river and harbor bill will undoubtedly be made the subject of severe attack by Senator White and others, who stand with him on the southern California deep water harbor question unless there is a change of the present decision of the committee which is in favor of Santa Monica.

### Early Adjournment Probable.

WASHINGTON, April 27.—A large majority of the senators, almost all of them in fact, now regard early adjournment as quite definitely determined. If the Democrats and Populists ever had any idea of attempting to prolong the session beyond the national conventions they appear to have given it up and few of them now fix the date beyond June 1.

### EXCITING SCENES.

Gold and Silver Dealers Have a Lively Time in Iowa Convention.

WATERLOO, Ia., April 27.—The gold standard people won a victory in Boies' home county Saturday. They outnumbered the silver Boies men three to two. The convention was characterized by the wildest scenes. In the outset the Cleveland men captured the convention. Just as the organization was perfected Chairman Scott of the central committee, entering the hall, ignored the proceedings.

Even Blacksmiths, who are supposed to represent great strength and perfect health, are likely to die of consumption. Mere muscularity isn't always healthy. Disease will develop rapidly once let the germs of consumption get into a man's system, and it will kill him certainly and surely if he doesn't take the proper measures to get rid of it. Exercise and work and dieting and all that sort of thing are good enough in their way, but consumption is one of the things that they won't cure. The bacillus of consumption is a living organism. It is infinitesimal, but it is alive. The only way to get rid of it is to kill it. If it isn't killed, it will develop and multiply. Germs are wonderfully prolific. In the quickest imagination, one becomes a thousand, and a thousand a million. Dr. Pierce's Golden Medical Discovery is a germ killer and a germ destroyer. Wherever a disease germ lurks in the body, the "Discovery" purifies it, and it is a tonic, a nerve, or nerve-food, or invigorator and blood-purifier, all in one bottle.

If you want to know all of the facts about this wonderful remedy—if you want to know all about the human body and human health, and sickness and how to get rid of it, send for Dr. Pierce's Common Sense Medical Adviser, a standard medical work of 1008 pages, profusely illustrated, which will be sent free on receipt of 21 one-cent stamps to cover cost of mailing only. This work is a complete family doctor book and should be read by both young and old. The profits on the sale of 680,000 copies at \$1.50 has rendered possible this free edition. ### SPANISH INDIGNITIES.

Illinois Man Compelled to Lie in Prison For Two Months.

TAMPA, Fla., April 27.—W. G. Dygart of Greenwood, Ill., has arrived here from Cuba, where he has just been released from prison, having been confined there two months. Dygart left Tampa Feb. 13 without getting a passport. He went into Havana on Feb. 23. He was arrested in the province of Havana and placed in prison at Guines. The only charge against him was that Spanish soldiers found an old Sharpe gun near the place where he was arrested. It was of very ancient make and no cartridges are now made to fit its very large caliber. He was given several so-called examinations, permission to write to friends or the United States consul was refused, but, when he was searched, the soldiers failed to discover several hundred dollars in paper money concealed on his person. Soon after his incarceration he bribed a guard to report his case to the American consul, paying \$20, \$50 to be paid on receipt of information that the case had been reported.

### On March 20 the guard handed him a piece of Spanish newspaper from which he learned that the case had been reported. March 28 Consul Williams notified him that his release had been requested.

### MURDERERS LYNCHED.

Two Men Taken From a Jail at Midnight and Hanged.

NASHVILLE, April 27.—At midnight last night a mob of armed men entered the jail at McMinnville, dragged the jailor from his bed and forced him to give up the cell keys. William and Victor Hill were then taken from the jail, carried on horseback five miles from McMinnville and both were hanged. Before the mob succeeded in removing their victims from the jail they had a hard fight with them, but the men were overpowered. The mob came from Van Buren county, where the lynchmen lived. The prisoners murdered Carroll Martin at his home in Van Buren county in 1894, the purpose being robbery. Two trials in the lower courts and one in the supreme court have been held and the cases were set for trial next week again. The prisoners have been held in jail at McMinnville for safe keeping and no attempt at lynching was expected.

### MARYLAND MURDERER CAPTURED.

Bloodstained Trousers Found Under the Pillow of His Bed.

LA PLATA, Md., April 27.—Joseph Cocking, husband of Mrs. Fannie Cocking, and brother-in-law of Miss Daisy Miller, who were murdered in their homes at Hill Top on Thursday night, was placed under arrest yesterday. A jury of inquest rendered a verdict that in their opinion he was guilty of the double murder. Last night Cocking was locked up here at Smoot's hotel and was taken to Baltimore today. Detective Gault of Baltimore found a pair of bloodstained pants under Cocking's pillow. The suspected man has been hugging his pallet ever since being under surveillance, and Gault's discovery was the result of insistence that he should get up.

### Husband and Wife Burned to Death.

NEWBERG, N. Y., April 27.—Mr. and Mrs. Barney Cullen were burned to death in their home near Chester, Orange county yesterday. They perished together in the sitting-room where Cullen had dragged his wife from their bed in his efforts to save her. Morris Cullen, a son, fractured a leg in jumping from a second story window. George Thompson, an adopted son, sustained a bad scalp wound by being cut with glass when he was dragged through an upper window. The origin of the fire is a mystery.

### CRIPPLE CREEK PLUCK.

Work of Rebuilding the Burnt District Is Already Under Way.

CRIPPLE CREEK, Colo., April 27.—Already the work of rebuilding the burnt district has begun and last night by the light of the full moon nails were being driven in many houses. At a meeting of the city council a resolution was passed allowing the erection of temporary buildings within the fire limits with the provision that all must be removed within 60 days to give place to buildings of stone and brick. Today as soon as the debris had cooled sufficiently the work of clearing was commenced and soon fully 25 buildings were under way and quite a number were occupied. With 3,000 people rendered homeless in a day, lodgings are in great demand, and many of these are rapidly progressing. Fortunately the weather is remarkably fine so that sleeping in the open air does not entail suffering and few have been compelled to do this. The best of order prevails.

### Old-Time Whig Passes Away.

WILMINGTON, Del., April 27.—Ex-Judge John W. Houston of the Delaware superior court, one of the most noted politicians in the state, died last night at his home in Georgetown. In 1844 Judge Houston was nominated by the Whigs of Delaware and elected to congress by a large majority. He was re-elected in 1846 and 1848.

### Horseman Killed.

LEBANON JUNCTION, Ky., April 27.—On the Louisville and Nashville railroad yesterday James Crutcher, the colored jockey, was killed and Oscar Alexander, trainer, and George White, stable boy, were badly injured. All were from this city. None of the cars were injured in the switching accident except the one containing the horsemen.

The proposition to admit women as delegates to the general conference of the Methodist Episcopal church, at Cleveland, has been defeated by a very narrow margin. The total vote is shown to be 7,515 for the admission of women and 2,529 against. According to a provision of the discipline, it is necessary for opposition to change any of the restrictive rules of the church to receive the support of three-fourths of the members of the annual conference voting for the proposition and two-thirds of the members of the general conference. The women have lost by just eighteen votes.

Thanks.  
We appreciate the following from so staunch a neighbor as the New Albany Tribune:

Another case of newspaper improvement may be seen in the Seymour Republican. The new proprietors are putting things in better shape evidently and the paper has put on a much brighter and cleaner face than heretofore.

We are glad to see that they are in the path of progress and moving along as encouragingly. We welcome them and wish them the highest success.—New Albany Tribune.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means no digestion. This may be the beginning of so many dangerous diseases, that it is better to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle.

Uncle Charles Bevins, who has long been in the grocery business here, and desiring to retire now offers all his stock, which is first-class, at a bargain. If you wish good goods at a big bargain, Mr. Bevins is the man to please you. dt

If you are anxious to learn in what business you can best succeed? If you want to know whom to trust and whom to let alone? If you desire to know whom you should marry? If you like science and fun combined, in fact if you want to learn something about a subject very little understood, hear Dr. Hyndman, to-morrow evening at the K. of P. Hall, third floor. Children and young people will be as much entertained as older people. Admission 15 cents, children under 15, 10 cents.

The Discovery Saved His Life.  
Mr. G. Oallouette, Druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. H. Andrews and Co.'s Drug Store.

### "DR. MILES," Through His Nerve Is a Benefactor to Thousands."

A WIDELY known Wisconsin publisher, who resides at Green Bay, writes March 26th, 1896, as follows:  
"Five years ago I became so nervous that mental work was a burden. I could not rest at night on account of sleeplessness. My attention was called to Dr. Miles' Restorative Nerve, and I commenced to use it with the very best effect. Since then I have kept a bottle in my house and use it whenever my nerves become unstrung, with always the same good results. My son also takes it for nervousness.  
Dr. Miles' Restorative Nerve, with like never failing success. I have recommended it to many and it cures them. All who suffer from nerve troubles should try it. It is free from narcotics, perfectly harmless, and yet soothes and strengthens. Dr. Miles, through his Nerve is a benefactor to thousands."  
A. C. LEHMAN.  
Editor and proprietor of DER LANDSMAN.  
Dr. Miles' Nerve is sold on guarantee. First bottle will benefit or money refunded.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
